## SAT<sub>3</sub>

## **Class 10 - English Language and Literature**

Time Allowed: 3 hours Maximum Marks: 80

#### **General Instructions:**

- 1. 15-minute prior reading time allotted for Q-paper reading.
- 2. The Question Paper contains THREE sections-READING, GRAMMAR & WRITING and LITERATURE.
- 3. Attempt questions based on specific instructions for each part.

#### Section A

### 1. Read the text carefully and answer the questions:

[10]

- 1. We live in an era where it is difficult to miss fast and junk food and the rise in teenage obesity and related health issues due to it.
- 2. During teenage, weight gain is normal but when it goes beyond control the person becomes obese. Our body requires energy to function, which is derived from the food we eat but when the intake of food becomes more than the amount that the body requires, the excess energy is stored as body fat.
- 3. Contemporary lifestyle sees an increasing consumption of junk food and spending time watching television and playing computer games. Overeating along with lack of physical exercise are the major causes leading to teenage obesity. Large intake of high-calorie food and low-nutrient food leads to unnecessary weight gain. Besides these, obesity can also be genetically inherited where some people have the genetic tendency to burn calories more slowly compared to others. Stress is also a reason for obesity where people resort to overeating to alleviate their stress.
  - Teenage obesity is growing immensely and has been named an 'obesity epidemic:
- 4. Several health issues arise out of it like diabetes, high blood pressure and cholesterol, sleep disorders, hormonal imbalance, and asthma. Along with these, obesity can also result in psychological problems like low self-esteem due to the constant jeering of peers. Obese teens are more prone to being teased and physically bullied compared to others of their age.
- 5. Therefore, it is necessary to control excessive weight gain. Inactivity is the major cause of obesity and regular exercise is the best way to control it. Physical activity like jogging. swimming and playing outdoor games can help to keep one fit. A balanced diet with lots of vegetables, fruit, and whole grains is also essential. Junk food and soft drinks should be substituted with lots of vegetables, fruit, and whole grains in the diet. Drinking around 8-10 glasses of water also helps to reduce calorie intake.
- 6. Parents have an important role in controlling teenage obesity as they should try to set examples by following a healthy diet and leading a healthy lifestyle. A combined effort of the parents and kids can help to control this eating disorder.
- (i) According to the author, why is it difficult to miss junk food for teenagers today?
- (ii) According to the passage, junk food is the major cause of obesity. True/false.
- (iii) Obese teens are more prone to be bullied. The term 'prone' refers to \_\_\_\_\_

- (iv) What is the meaning of the phrase 'constant jeering of peers' in the passage?
- (v) If a teenager follows a good diet, \_\_\_\_\_ can still lead him to obesity.
  - a. heredity
  - b. junk food
  - c. bad habits
  - d. laziness
- (vi) Select the option with the underlined words that can substitute the word 'alleviate' (paragraph III).
  - a. Sameer had been <u>promoted</u> to the Manager's position.
  - b. The medicine <u>reduced</u> the headache soon.
  - c. The teacher was too <u>angry</u> with the class.
  - d. Richa's marks have been increased since last complaint made to her parents.
- (vii) According to the passage, which emotion leads to over-eating in teenagers?
- (viii) Select the problems that obesity may lead to, according to the passage.
  - (1) diabetes
  - (2) vertigo
  - (3) high blood pressure and cholesterol
  - (4) hormonal imbalance
  - (5) sleeping disorders
  - a. (1), (2), (3) and (4)
  - b. (3), (4) and (5)
  - c. (1), (2) and (5)
  - d. (1), (3), (4) and (5)

## 2. Read the text carefully and answer the questions:

[10]

If you are addicted to coffee and doctors warn you to quit the habit, don't worry and just keep relishing the beverage, because it is not that bad after all! In fact, according to a new study, the steaming cup of Java can beat fruits and vegetables as the primary source of antioxidants. Some studies state that coffee is the number one source of antioxidants in the American diet, and both caffeinated and decaf versions appear to provide similar antioxidant levels.

Antioxidants, in general, have been linked to a number of potential health benefits, including protection against heart diseases and cancer, but Vinson, a dietician said that their benefits ultimately depend on how they are absorbed and utilised in the body. The research says that coffee outranks popular antioxidant sources like tea, milk, chocolate and cranberries. Of all the foods and beverages studied, dates actually have the most antioxidants based solely on the serving size, but since dates are not consumed anywhere near the level of coffee, the drink comes as the top source of antioxidants, Vinson said.

Besides keeping you alert and awake, coffee has been linked to an increasing number of potential health benefits, including protection against liver and colon cancer, type 2 diabetes and Parkinson's disease, according to some recently published studies.

The researchers, however, advise that one should consume coffee in moderation, because it can make you

jittery and cause stomach pains.

(i) Identify a similar analogy appropriately, based on your understanding of paragraph 1.

We can refer to a food lover in different ways like in this sentence: The gastronome was disappointed with the menu.

A similar reference to coffee is made in the line:

(ii) Fill the blanks with the appropriate option from those given in brackets, based on your understanding of paragraph 2.

The statement that, the potential benefit of coffee depends on how it is absorbed and utilised in the body, is a \_\_\_\_\_\_ (fact/opinion) because it is a \_\_\_\_\_ (subjective judgement/ objective detail).

(iii) Justify the following, in about 40 words.

While the studies suggest that coffee is the number one source of antioxidants in the American diet, the researchers also advise its moderate consumption.

- (iv) Based on the statistics of caffeine per cup, which two versions of coffee have the highest concentration of caffeine?
- (v) Study the graph and draw an inference about what should be the most preferred version of coffee for Americans based on your understanding of paragraph 1.
- (vi) Select the option that correctly displays the popular sources of antioxidants that coffee outranks. (Reference-Paragraph 2)

- A. (i), (iv) and (v)
- B. Only (ii)
- C. Only (iii)
- D. (ii) and (v)
- (vii) Which of the following is the main takeaway from the study mentioned in the passage?
  - A. Coffee is rich in antioxidants and good for health so it must be consumed by all.
  - B. Coffee protects against diseases like colon cancer and type 2 diabetes.
  - C. Coffee as a beverage has various health benefits provided it is taken in moderation.
  - D. Coffee is a part of the American diet as it is a rich source of antioxidants.

(viii) Infer the reason behind Vinson's observation on dates having more antioxidants than coffee, yet not topping the list of top sources of antioxidants. (Answer in about 40 words)

Tenth May dawned bright and clear. For the past few days, I had been pleasantly besieged by dignitaries and world leaders who were coming to pay their respects before the inauguration. The

inauguration would be the largest gathering ever of international leaders on South African soil. The ceremonies took place in the lovely sandstone amphitheatre formed by the Union Buildings in Pretoria. For decades this had been the seat of white supremacy, and now it was the site of a rainbow gathering of different colours and nations for the installation of South Africa's first democratic, non-racial government.
